

TESTIMONIALS ABOUT CAFÉ RUIZ

Having had the privilege of visiting the Ruiz plant in Boquete, Panamá, and seeing the mountains where the plants are grown, I am thankful to be able to get my coffee so close to my home here in Ohio.

Gifta Snyder
Bellville, OH

In 2005 my daughter and I visited Boquete and took the coffee tour. It was obvious that our guide sincerely believed that Café Ruiz was not merely the best in the world, but the best in the known universe. We met Mr. Ruiz senior and I was impressed with the care and concern he had for his employees.

At the end of the tour, we tasted the coffee and ended up in the little coffee shop to buy a bag or two. While there, I met a gentleman from David who told me what great coffee he thought this was. He said he drove up a couple of times each year just to buy the coffee. I noticed that he laughed every time he spoke about it. That caught my attention.

I came back to the States and finished off the coffee I bought in short order, so I started buying from Lia. I tell all my friend and coworkers about Café Ruiz. Maybe if they are very, very good, I will let them try some of mine.

I do have the following problems with the coffee – I can't keep my relatives from walking off with it. When I have to drink some other coffee, I get no enjoyment at all. Therefore, when I leave town, the coffee goes with me. There is no finer coffee anywhere.

Bear McCollum
Houston, TX

Your French Roast coffee (fresh ground each morning) is the best French roast I have ever tasted !!! (And, I am very particular about coffee flavor).

Ellen Darby
Cleveland, OH

The coffee from Café Ruiz is the only coffee that I can drink reheated that has no bitterness to it, but tastes like it did in the morning.

V.M.
Aurora, OH

I learned about Café Ruiz when I toured the plantation a few years ago. I love going there and just walking around. I particularly like the coffee because of the way it is roasted. Thank you !

Agustín Ayala
Bellingham, WA

I bought your coffee when it was first introduced in Panama – I lived in Panamá, worked for Panamá Canal. I think that your coffee is your best coffee in the world!
